Projects

1. **Unemployment**

Link : - https://rajivkumar2023.github.io/unemployment-/

Employing HTML, CSS, and JavaScript, my unemployment project addresses job scarcity. This responsive website provides job listings, government schemes, and startup ideas, fostering awareness and empowerment in the community, promoting a proactive approach towards unemployment challenges.

2. **Child labor**

Link: - https://rajivkumar2023.github.io/Child_labour/

Child Labour Awareness project using HTML, CSS, Bootstrap, and JavaScript. This website is designed to teach people about the harmful effects of child labor in a way that's easy to understand, using a visually appealing design to grab attention and encourage action.

3. **Portfolio**
Link: - https://rajivkumar2023.github.io/portfolio_HCJ/

Passionate about making websites look awesome using HTML, CSS, and JavaScript. Enjoy creating beautiful designs and easy-to-use interfaces. Let's work together to make your ideas real!
